

To say thank you and serve

The story of St Luke's Hospice, Kenilworth, Cape Town

This book shows the complex and intricate network of support St Luke's has received from so many individuals and corporates over the years – money, time, ideas, energy have been given so selflessly to help us grow into an effective organisation.

St Luke's now not only offers relief from pain and a peaceful and dignified death, but increasingly is active in bringing quality to the remaining lives of so many people, reaching out across the Cape Peninsula to relieve suffering and restore hope and joy.

READ ABOUT ...
